## Acre Hall Skills Map for Maths

Geometry- Properties of shape

|  |  | IDENTIFYING SHAPES AND THIER PROPERTIES |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| Talk about and explore 2D and 3 D shapes using mathematical language E.g. sides, corners, round, flat. | Select, rotate and manipulate shapes in order to develop spatial reasoning skills. | recognise and name common 2-D and 3- <br> D shapes, including: <br> * 2-D shapes [e.g. rectangles (including squares), circles and triangles] | identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line |  | identify lines of symmetry in 2-D shapes presented in different orientations | identify 3-D shapes, including cubes and other cuboids, from 2-D representations | recognise, describe and build simple 3D shapes, including making nets (appears also in Drawing and Constructing) |
| Select shapes appropriately E.g a circle for a wheel. | Names some common 3D shapes, e.g. a sphere or cube. | cuboids (including cubes), pyramids and spheres]. | identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces |  |  |  | illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius |
| Combine shapes to make new ones. | Understanding that the orientation of a shape does not change its properties. |  | identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid] |  |  |  |  |

| Is beginning to see shapes in the environment, e.g. a house is seen as a square with a triangle roof. |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | DRAWING AND CONSTRUCTING |  |  |  |  |  |
| Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| Uses blocks to build structures. | Compose and decompose shapes so children know that a shape can have other shapes in it E.g. you can remove one side of a square to form a triangle |  |  | draw 2-D shapes and make 3-D <br> shapes using modelling materials; recognise 3-D shapes in different orientations and describe them | complete a simple symmetric figure with respect to a specific line of symmetry | draw given angles, and measure them in degrees $\left({ }^{\circ}\right)$ | draw 2-D shapes using given dimensions and angles |
|  | Puts 2D shapes together to make part of a picture, e.g. triangles and a circle to make a flower. |  |  |  |  |  | recognise, describe and build simple 3D shapes, including making nets (appears also in Identifying Shapes and Their Properties) |

|  | Builds more complex structures, substituting combinations for an-other shape. |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | COMPARING AND CLASSIFYING |  |  |  |  |  |
| Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| Recognises and identifies objects that are alike, e.g. red objects. |  |  | compare and sort common 2-D and 3-D shapes and everyday objects |  | compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes | use the properties of rectangles to deduce related facts and find missing lengths and angles | compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, |
| Sorts by using a single attribute, e.g. 'I picked out all the heartshaped pieces.' |  |  |  |  |  | distinguish between regular and irregular polygons based on reasoning about equal sides and angles | quadrilaterals, and regular polygons |
|  |  |  |  |  | GLES |  |  |
| Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|  |  |  |  | recognise angles as a property of shape or a description of a turn |  | know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles |  |

|  |  |  |  | identify rightangles, recognisethat two rightangles make a half-turn, three makethree quarters of aturn and four acomplete turn;identify whetherangles are greaterthan or less than aright angle $\|$identify horizontal <br> and vertical lines <br> and pairs of <br> perpendicular and <br> parallel lines | identify acute and obtuse angles and compare and order angles up to two right angles by size | identify: <br> * angles at a point and one whole turn (total $360^{\circ}$ ) <br> * angles at a point on a straight line and $1 / 2$ a turn (total $180^{\circ}$ ) <br> * other multiples of $90^{\circ}$ | recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
